A word to the public in regard to the right of way: It would be well for drivers of vehicles to remember that all U. S. mail carries have the right of way in the public highway when on duty. They cannot be driven into the ditches by heavy loaded wagons without violating the mail law; and if a collision happens by so doing and the mail delayed, it will not be long thereafter until deputy U. S. marshal will be looking for certain parties who will answer to roll call at a U. S. court. This law applies not only when meeting a vehicle, but applies to those ahead of the mail as well, when the mail makes an effort to pass.
